Dear Dr. Mortensen,

On Dec. 3, 2025, the IRCM IRB conditionally approved the following study pending requested changes. Those changes having been made the board now fully approves:

> "A Prospective Multi-Site Observational Study of Peptide-Supported Metabolic, Regenerative, and Performance-Enhancement Protocols in Ambulatory Adults"
> Protocol number: PPRN-001-2025
> IRB approval number: IRCM-2025-467

Attached are the stamped approved version of the protocol and the approved consent form. Please contact us to schedule a continuing review on, or prior to, Dec. 2, 2026.

Please sign and return the attached investigator agreement.

Please keep in mind that IRB approval does not constitute exemption from applicable local, state or federal regulations or requirements, and is not a substitute for any required pre-market approval.

We look forward to working with you as your study progresses.

Sincerely,

James P. Faber
Secretary, IRCM IRB
